

Telescopic Hot Sticks

The [Macron Safety fiberglass stick](#) is the next generation of telescopic fiberglass hot sticks. The Macron Safety fiberglass stick has been engineered to create the strongest, lightest telescopic hot stick on the market. The result is a telescopic stick able to withstand the rigors of daily use and misuse without sacrificing lightweight portability.

The outer surface texture provides a positive gripping surface even in wet conditions. All operating buttons are machined to the tightest of tolerances to provide maximum shear strength. The stick is manufactured from the highest grade electrical rated fiberglass that meets or exceeds all applicable industry performance criteria including ASTM F711, ASTM F1826 and OSHA 1926.951(d).

EZ Tip Replacement (patent pending)

All Macron Safety fiberglass sticks come equipped with the new EZ tip lock button replacement feature. No more complete stick disassembly to replace the tip lock button which usually winds up as a complete section 1 fiberglass changeout. The EZ tip lock button replacement feature permits the tip lock button to be replaced easily and rapidly **WITHOUT** disassembly of the entire stick, a costly and time consuming operation.

Tip Lock Feature

The new BLUE STRIPE fiberglass sticks come with a standard tip lock feature which offers even more strength and versatility. The operator can simply lock the last two end sections together for maximum strength and rigidity.

This is necessary to open/close stubborn equipment without the risk of breaking the stick. Remember when utilizing the tip lock feature the operator will lose approximately 5 foot of extended reach. For operations requiring the extended reach with the tip lock feature, order the larger size.

THE ONLY 50 FOOT TELESCOPIC HOT STICK ON THE PLANET!!

Ground Operable					
Size	Closed Length	Base Diameter	No. Of Sections	Weight	Operating Lengths
50 FT.	68"	3 1/2"	11	20 lb	50',45',40',35',30'
45 FT.	66"	3 1/8"	10	16 lb 8 oz	45',40',35',30',26'
40 FT.	65"	2 7/8"	9	13 lb 8 oz	40',35',30',26',21'
35 FT.	53"	3 1/2"	11	15 lb 4 oz	35',30'
35 FT.	63"	2 5/8"	8	11 lb	35',30',26',21',17'
30 FT.	62"	2 3/8"	7	8 lb 14 oz	30',26',21',17'
25 FT.	60"	2 1/8"	6	6 lb 14 oz	26',21',17'
20 FT.	58"	1 7/8"	5	5 lb 3 oz	21',17'
16 FT.	56"	1 5/8"	4	4 lb	16',12'
Bucket Operable					
12 FT.	30"	2 5/8"	7	5 lb 4 oz	12'
10 FT.	28"	2 3/8"	6	4 lb 11 oz	10'
8 FT.	26"	2 1/8"	5	3 lb 11 oz	8'
6 FT.	26"	1 7/8"	4	2 lb 8 oz	6'
4 FT.	26"	1 5/8"	3	2 lb	4'
ETE	56"	1 1/4"	1	1 lb	adds 56"

The 35-C* has an overall length when retracted of 53" yet extends to a full 35' and was specifically designed to fit into the trunk of a mid-size car.

**The ETE foam filled extension adds 56" of length to any telescopic hot stick.
